Work experience

Developer | [CognifyPath](#), Toronto, Canada (Remote)

Freelance NOV 2024 - Present

Optimized and improved the performance of the dashboard UI.

Authored Terraform IaC scripts for AWS, automating 100% of resource provisioning, cutting manual effort by ~80%.

Deployed K3s clusters with real-time observability via Loki and Grafana, improving issue detection by ~60%.

Configured and managed over 20+ VMs (Windows, Ubuntu, RHEL) on VMware with secure, private networking via Tailscale, enabling isolated, production-like test environments.

Automated Azure DevOps workflows by scripting custom work item logic, reducing manual PM tasks by ~50% and enabling dynamic work item hierarchies, similar to Monday.com-style integrations.

Developer at [Technosthala PVT LTD](#), Bangalore

OCT 2022 - Present - my startup

Scaled a SaaS platform for school management, securing 5+ schools and generating ₹8 lakhs+ in revenue.

Led the end-to-end product lifecycle, delivering key features like fee management, online exams, and attendance tracking.

Automated reporting workflows, improving operational efficiency by 90% while aligning engineering and business goals through stakeholder collaboration.

JS Full stack developer at [TeacherOP](#), Bangalore

Aug 2024 - OCT 2024

Designed and launched AI-powered course and assessment tools, growing the platform while ensuring feature delivery aligned with user needs.

Collaborated with cross-functional teams to develop scalable backend systems and intuitive user interfaces, driving seamless product design and development.
